To Whom It May Concern:

It is with great pleasure and with the deepest appreciation and respect for the Clark, Duncan, and Morris Company that I be able to recommend Mr. Morris and his awesome moving team for your project. As the Principal of Amigos Por Vida Friends for Life Public Charter School, I am clearly aware of your moving needs as an educational institution. We moved this past February from our apartment based school to our new campus.

Mr. Morris was personally available throughout the pre-planning process, was present during, and after the move. Peter strategically guided us and was very understanding and flexible in meeting our needs, even though two scheduled attempts were aborted over two months due to construction delays. When the move finally arrived, the relocation team was able to move our entire school within 2 and ½ days. This included 22 classrooms, a library, a computer lab, a clinic, a cafeteria, and administrative offices.

It is important that you trust those individuals who will be responsible for moving your school. I can tell you that you cannot go wrong with these folks. You are buying more than a moving service with Clark, Duncan, and Morris. You are building a strong relationship with an organization that understands the importance of schools and the invaluable gift that children are to our society. Please give Mr. Morris serious consideration and feel free to contact me if you need more information.
