Dear Peter,

I wanted to convey our appreciation and immense satisfaction for the years of continued professional service and support over the years.

clark, duncan & morris has moved our offices three times in 10 years and currently provides all manner of facilities relocation, configurations and transition services. Your firm also currently stores our Knoll furniture assets in your warehouse, which is well secured and features numerous high resolution surveillance cameras.

Many of the valued components are your Project Management services, space planning and unrestricted options to new and used furniture offers; keeping us well furnished, but cost effective within our floors. Your firm's ability to assess and execute projects is unequaled. Your team and their leadership during the move and installation projects, especially during the mergers over the past three years, have made it easier for us to focus on the overall facilities picture, at a higher altitude view.

From the records & files transfers, the office moves, the furniture projects and the technology migrations, I cannot imagine how much more difficult our jobs might have been without your service and partnership. We are pleased to have you as one of our valued resources.

Sincerely,

*Farcellous Cross*
