To Whom It May Concern:

CyrusOne has been working with Clark, Duncan & Morris since 2003 and I can confidently recommend them to anyone looking for a reputable company. We have trusted them with our most important customers' data room migrations in all three of our locations and have received numerous compliments on the service they provide.

As our company grows and we furnish new offices and boardrooms throughout the state, Sherrie has been our first call for everything we are looking for and always finds exactly the right piece at a fair price, all with little to no lead time. Her crews do an excellent job installing the pieces and our offices look fantastic.

Again, I cannot stress enough the trust we have placed in Clark, Duncan & Morris and we have yet to be disappointed in any service they have provided CyrusOne.

Sincerely,

A handwritten signature in cursive script that reads 'Terri Cook'.
