Dear Peter and Sherie:

A big thank you to you and your employees for handling the relocation of our office in a highly professional and efficient manner that far exceeded my expectations. Any move is stressful, but you certainly made my job easy by recognizing and anticipating every need to insure our furnishings were protected and safe in transport. I particularly appreciated your on-site presence throughout the process.

Your employees that handled our move were extremely hard working and each did their job very carefully and efficiently. No matter what I asked them to do or how many times I asked them to move a piece of furniture, they did it without hesitation.

Again, thank you and I wish you every continued success. It is certainly well deserved.

Sincerely,

A handwritten signature in cursive script that reads 'Bessie S. Grahmann'.
