Sugar Land, Texas 77496-7304

Dear Peter,

I wanted to convey our satisfaction and gratitude for the careful handling and personal oversight you and your team provided during our equipment migration from Data Foundry to CyrusOne. The successful project can be attributed to an assembly of providers from: Troubadour, Data Foundry, CyrusOne, clark, duncan & morris and Quanta.

As part of our production environment, you physically transferred our Xiotech, DELL, EMC and Cisco hardware and equipment. These systems were moved within and above the specifications of the manufacturers, via their onsite technicians. Your team exceeded our timeline and scheduling objectives, doing so without sacrificing safety or quality.

clark, duncan & morris worked well with the team and offered sound, experienced advice, improving the handling and logistics aspects of the relocation effort. Your firm was willing and responsive to our needs as they were identified, taking direction and ownership of duties.

We would recommend you and your firm again with future network/data systems migration projects.

Sincerely,

Greg Avedissian
