Peter Morris & Sherie Duncan
Clark, Duncan & Morris
Houston, Texas

Dear Peter and Sherie,

What a happy group we are. We love our new offices and everyone keeps asking why we waited so long to move. The truth is – we waited because I so dreaded the hassle of an office move after being in the same place for 35 years. Even the thought was daunting.

Luckily, our trade association has some wonderful members who are willing to offer sound advice, and since our chairman is Robert Workman, president of National Oilwell Varco's Distribution Services Group, I decided to call him first. The rest is history.

Your company turned out to be everything NOV said it would be – efficient, cooperative, and able and willing to do whatever it took to make our move happen. We expected a professional, well-executed move and your company exceeded our expectations.

I consider it an honor to recommend you to others just as National Oilwell Varco recommended you to us – without hesitation. So thank you for making this move an uneventful experience that has allowed everyone at PESA to enjoy our new office space and to be grateful to you for getting us here.

Best regards,

Sherry Stephens
PESA President
